- **Gerry Stoch**, Director, Global NY, Israel

NEW YORK - A STATE OF GROWTH

New York State's GDP of US\$1.3 Trillion and a State Budget of \$175 billion make New York one of the largest economies in the world.

Israel is New York State's 4th largest trading partner with exports exceeding \$6 billion. With an economy the size of New York, it clearly produces a very wide range of products. This mission allows Israelis to meet some companies looking to enter the Israeli market.

Trade business is mutual business. So here is an opportunity to come and meet and network with these companies in Tel Aviv.
